contract administration

Contract administration involves administering the contract on behalf of the client and ensuring a high construction and safety standard is maintained for the duration of the landscape construction works.

Our Services

- knowledge and understanding of standard contracts including AS2124 and AS4000
- safety compliance for all relevant staff including construction Blue Card certification
- attendance at site meetings and site visits to observe the progress of the works in accordance with drawings and specifications
- issuing of any instructions or supplementary details during the construction phase
- review and approval of shop drawings, samples and prototypes, as required
- co-ordination with other contractors and consultants
- review of progress claims for approval of payment
- dispute resolution
- issuing of instructions, as required, during the Defects Liability Period (DLP)
- preparation of a final defects list for attendance by the Contractor at the end of the DLP

Our Experience

- Beachridge Estate, Ardross
- Minim Cove Foreshore, LandCorp
- Kalbarri Residential and LIA Subdivision, LandCorp
- Kalinda Drive, The Boulevard Land Development, Town of Cambridge
- Cervantes Land Development, LandCorp
- Roe Highway, Roe Alliance
- North Coogee Stage 1, Stockland and City of Cockburn
